

EU funding - WRPO 2014+ (ERDF)

The map composition presents the amounts of funding and total values of projects implemented under the Wielkopolska Regional Operational Programme (WRPO 2014-2020), which is financed by the European Regional Development Fund (ERDF).

Total project values and grant amounts have been aggregated to counties according to where each project was implemented. The exceptions are the projects implemented throughout the voivodeship, which were presented on a separate layer without a breakdown by district.
