The map composition presents information on healthcare entities in the Wielkopolskie Voivodeship. The details include contact details of individual units and other necessary information, e.g. wards or clinics located in a given location.

The profile also includes detailed data on the functioning of the State Medical Rescue System, such as the location of stationing of medical rescue teams, air ambulance services or hospital emergency wards, in accordance with the Provincial Action Plan of the State Medical Rescue System, drawn up and updated by the Wielkopolskie Voivode.

Our portal also reflects the register kept by the Marshal of the Wielkopolskie Voivodship of entrepreneurs running transport psychology workshops in the voivodship.
