Maintenance of an inventory of take-back sites and collectors of waste batteries or waste accumulators

Maintaining an inventory of take-back locations and collectors of waste batteries or waste accumulators.

The purpose of the e-service is to provide information on businesses operating collection points and collecting waste batteries and accumulators. The collected data will be processed and stored in the register of the Department of Environment of the Office of the Interior entitled, 'List of collection points and waste battery or accumulator collectors' maintained by the SIPWW system.
